

PHOTOGRAPHERS

Thanks for volunteering to take photos of the HCFG speaker and program, workshop or event.

You are free to use a camera or cellphone. The preferred format for the photos is jpeg and they should be resized to medium to email to the web master and/or the newsletter editor. The photos can be taken either before, after or during the program, workshop or event.

You are free to take as many photos as you deem representative of the program, workshop or event. However, please choose no more than six to email to the web master and/or newsletter editor after reducing them to a medium size. You do not need to send the same photos to both. The web master posts them on the web page for viewing not only by members but the public when they are researching the guild. The newsletter editor posts them in the newsletter that is sent to the members and other interested individuals.

The photographs should include a mix of the following depending on whether it a speaker and program, workshop or event if being photographed.

- Close-up of the presenter and her/his project(s).
- The audience participating and/or interacting with the presenter.
- Close-up of the project or event.
- Overview of the event and members of the audience.
- Close up of MC for the event.
- Handmade items and/or models wearing these items.
- Anything else you feel would be representative of the speaker and program, workshop or event.

Please send the images as soon as possible to the web master Marjie Gray at marjiegray2000@yahoo.com and/or the newsletter editor Carolyn Nelson at either carolynnels@gmail.com or artbytheinch2@gmail.com

Thanks for your help.
